**Subject:** Proposes historic ordinance

Good morning,

As a Village homeowner I am writing to convey my strong opposition to the proposed Historic Preservation Ordinance. I have followed this idea and find while well-intended, it's overreach is contrary to the independent charm and character of the Village in all of it's diversity.

Had historic limitations been adopted at any time in Zionsville's history, it would not be the gem it is now. Please do not allow a wonderful place to live to be restricted by a preservation committee.

We live at the end of Main St and find the overwhelming majority of homeowners care for their homes thoughtfully without the imposition of regulations. This has been a thriving area of economic growth without dictating taste. Please keep it that way!

Sincerely,

Wendy Bair
